RICOH CloudStream

Empower your organisation with a secure,
serverless cloud printing solution

Unlock the benefits of cloud technology with RICOH CloudStream

RICOH CloudStream is print cloud technology that has been designed with your needs in mind. At Ricoh, we know that managing on-premise servers is costly and places a heavy strain on IT teams. Security standards are critical and budgets often play a part in decisions on whether to invest in cloud technology.

Our innovative solution is cost-effective and does not compromise on quality. Our all-in-one cloud print solution is available for Ricoh and multi-vendor print devices, providing you with a solution that works with your existing print infrastructure.

The advantages of RICOH CloudStream

Reduce the burden on IT departments

IT departments can save on costs and reduce environmental impact by not having to buy or maintain print servers with cloud-based print management. With one universal print driver, you can do away with multiple print drivers. RICOH CloudStream allows IT departments to focus on strategic goals instead of print server issues. This decreases workload, improves efficiency and frees up more time for important strategic initiatives.

Enhanced security

Enjoy the security and confidence that come with RICOH CloudStream's high-level security features. RICOH CloudStream uses the most advanced security technologies to safeguard user data. Our cloud-based solution automatically updates security measures, ensuring that your operations run efficiently and safely.

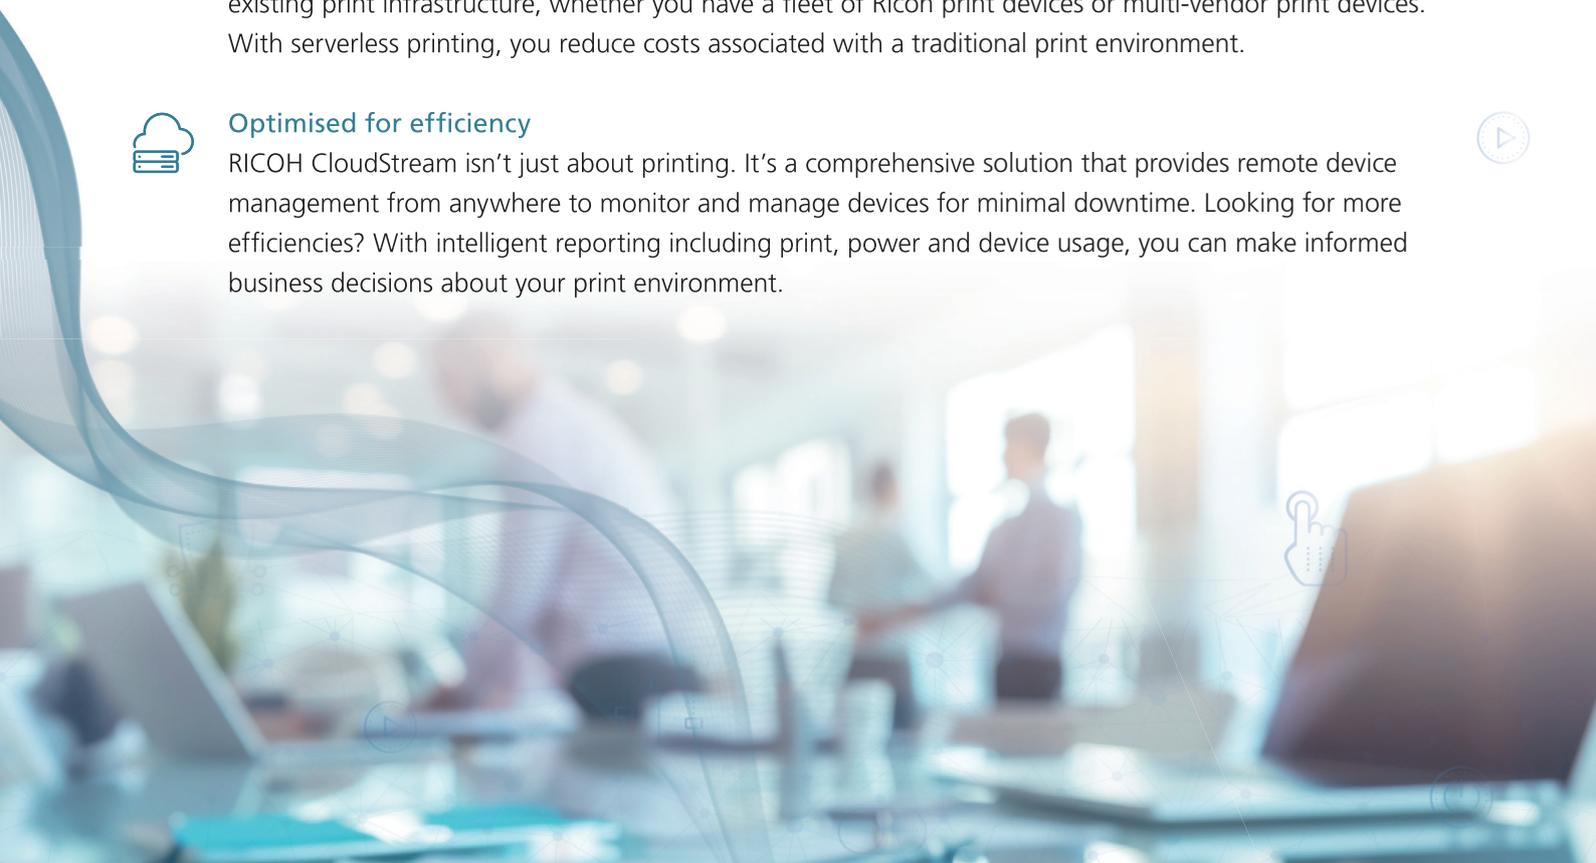

Manage costs effectively

Customise your print environment with RICOH CloudStream. Designed to seamlessly integrate with your existing print infrastructure, whether you have a fleet of Ricoh print devices or multi-vendor print devices. With serverless printing, you reduce costs associated with a traditional print environment.

Optimised for efficiency

RICOH CloudStream isn't just about printing. It's a comprehensive solution that provides remote device management from anywhere to monitor and manage devices for minimal downtime. Looking for more efficiencies? With intelligent reporting including print, power and device usage, you can make informed business decisions about your print environment.

The advantages of RICOH CloudStream

Sustainable print choices

Minimise environmental impact with cloud print management that helps you conserve paper, energy and resources. RICOH CloudStream lets you print what you want when you want it, using secure pull printing and mobile printing capabilities. You can also digitise your workflows, reducing waste and emissions.

Increase user satisfaction

Cloud printing has never been easier — print on any device, anywhere and anytime. With location-aware printing, users can seamlessly and securely access any printer at any location without installing print drivers or devices. In a hybrid workplace, this functionality is the way forward with employees increasingly needing flexible and top tier technology.

Cloud printing for the modern workforce

Embrace the future with serverless printing, and experience cost saving benefits, simplicity and flexibility while ensuring all your data is secured.

At Ricoh, we care about your organisation's success. We have over 80 years of experience in delivering innovative technology and services to customers around the world. We are committed to providing you with reliable, secure and sustainable solutions that help you achieve your digital transformation objectives.

When you partner with Ricoh, you get more than just cloud printing. You get a comprehensive suite of solutions that cover every aspect of your print environment, from device management and maintenance to user authentication and document security. You also get access to our global network of experts and support teams, who are ready to assist you anytime and anywhere.

With Ricoh, you can enjoy the benefits of cloud printing without compromising on quality, performance or security.

Choose RICOH CloudStream for a seamless, secure and serverless printing experience that propels your organisation forward.
